Case Commander™ Incident Command System

Top Layout

Bottom Layout

This Incident Command System consists of two tactical command worksheets mounted in a weatherproof case with built in legs. The worksheets have a dry erase surface that accepts magnetic tags that represent the Officers and apparatus at the incident. The Incident Commander will use the system to track the tactics and assignments throughout the duration of the incident.

Case Commander Incident Command System Specifications:

Black Weatherproof Polymer Case featuring;

- 40" long x 16.5" wide x 9" high
- Heavy-duty in-line wheels
- Two double layered, soft grip handles
